Education

09/2021 - Present
MSc. Computer Science (AI / ML track)
Delft University of Technology | Delft
Thesis: Probabilistic type inference to improve static analysis.
Expected graduation date: January 2024

09/2017 - 07/2020
BSc. Computer Science and Engineering
Delft University of Technology | Delft
Average grade: 7,8/10
Minor: Communication Design for Innovation

09/2011 - 07/2017
Tweetalig VWO
Scala College | Alphen aan den Rijn
Certificate: International Baccalaureate - Higher Level English
Profile: Nature & Technology
Average grade: 8.0/10 (Cum Laude)

Work experience

10/2020 - 06/2021
Junior Web Developer
Meetrix Online B.V. (Lootjestrekken.nl) | Delft
Web developer of the "lootjestrekken.nl" website. Here, I worked with technologies such as ASP.net and Vue.js. Moreover, I helped set up and develop their mobile application built with Flutter.

10/2020 - 06/2021
Full Stack Developer
Freelance | Delft
Full stack developer for an energy company that wanted a project management and analytics tool. I designed and created the front-end, back-end and database from scratch using Vue.js, HTML, CSS, JavaScript, Node.js, Express.js (REST API), PostgreSQL, other npm packages and Adobe XD.

07/2017 - 08/2017
Full Stack Developer
Action BV | Alphen aan den Rijn
I restocked shelves at Action BV as a summer job before going to university.

Side activities

09/2017 - Present
Various committees
Student association C.S.R. Delft | Delft
- PubCie (Maintains and improves the website)
- DiesCie (Organises a 2-week-long Dies Natalis)
- AcqCie   (Acquisition committee)

01/2016 - Present
Livestream, audio and heating
Baptisten Alphen | Alphen aan den Rijn
Support for presentation, image and audio in church services.
